

Dear Sir/Madam

A new call for the Marie Skłodowska-Curie Individual Fellowships funded by the EC Framework program H2020 was launched on April 12th 2016. (deadline 14th September).

The program aims to support **the career development and training of experienced researchers** in all scientific disciplines through international and inter-sector mobility to enhance their creative and innovative potential and to diversify their individual competence in terms of skill acquisition.

The Marie Skłodowska-Curie actions are open to researchers of any age, nationality or discipline. They fund excellent research and provide attractive working conditions.

The University of Padova is seeking outstanding researchers to apply to these actions.

Furthermore, the best Marie Skłodowska Curie Fellows at the University of Padova will have the possibility to participate **to the “Talents Grant Program”, a new initiative funded by our university to support the best researchers for two additional years of research activities.**

The International Research Office will offer support and customized assistance to potential candidates wishing to apply for a MSC Fellowship at the University of Padova.

We would be grateful if you would forward this information or draw attention to this funding initiative through other suitable means.

Yours sincerely,

Marcella Bonchio
Vice Rector for research at the University of Padova
